VISION & MISSION

01. Vision

Company HAWKWINGS is expanding the research and development programmed for long term electrification of drives with this commitment. The three essential goals of the fleet trail are:

- The electric motors used in the test fleet should be powered with regenerative electricity.
- The test vehicles store this energy using the latest battery technology.
- These batteries needs to be particularly durable and low cost to allow the electric drive to make the breakthrough to mass production.

“Company to accelerate the world’s transaction to sustainable energy.”

Hawkwings is not just an automaker, but also a technology and design company with a focus on energy innovation.
